PROJECT EXPERIENCE:

COVID Tracker: (Android + Kotlin - Jul 2020)

- In this, We have used gov api for COVID 19 data.
- This app will display active, confirmed, recovered, death data of COVID (India).

GST Calculator: (Android + JAVA - Jul 2020)

- This is GST Calculator using JAVA in which we can count GST for any product
- User can add or subtract by simply typing initial cost of product and can get a net amount , CGST/SGST.

Tic Tac Toe: (Android + Kotlin May 2020)

- This is a Tic Tac Toe game using Kotlin in which players can play offline (2player mode & with Jarvis).
- Jarvis has 3 difficulty modes (easy/ medium/ hard).

Eggs Funda: (Python - April 2020)

- I have created a graphical game named Eggs Funda by using the pygame module of python.
- If player catches the egg, the score increases by 10.

4Connect: (Python - April 2020)

- I have created this game named 4Connect by using the pygame module of python.
- This is a two player game & the player has to connect 4 circles in sequence to win.

Space Invaders: (Python - April 2020)

- In this game player has to fire bullets to kill invaders which are moving horizontally & vertically.
- This game has sound & score feature also.

Manish Stationery Mart: (HTML|CSS|JS|PHP - Feb 2020)

- This is a dynamic stationery website in which user can logged in, can see the products and add to cart also.

TrecoX B2B: (HTML|CSS|JS|BootStrap - Aug 2020 - now)

- TrecoX means Traders E Connect, I have developed 3 page currently & developing database using **firebase**.
- I have done all the validation of form using js & designed it using **CSS & BootStrap4**

ACHIEVEMENTS:

- [HackerRank skill test for Python \(Basic\)](#)
- HackerRank Badge 2 star in problem solve
